RE: Please protect the Endangered Species Act framework

Dear Members of Congress,

As a person of faith and your constituent, I ask you to make sure the Endangered Species Act framework remains effective. This law has a 99% effectiveness rate in protecting species that are listed. My faith teaches me that all species are part of God's creation. Protecting our environment is critical for ensuring human health and safety as well. As we continue to see more species added to this list, ensuring their protection is more important than ever. Please oppose any changes to the Endangered Species Act framework that could allow for more species to become threatened, endangered, or go extinct.

Thank you for your public service.

Thank you,
