RE: Thank you for coauthoring AB 2097

Dear Senator,

Thank you so much for your leadership on housing and transportation this year.

As a matter of fact, Gov. Gavin Newsom signed one of our favorite bills, AB 2097, into law just last week. This important reform will make it easier to build dense, transit-friendly homes with little to no parking. This law will help us cut our carbon emissions and fix our housing crisis.

This would not have happened without your help.

Thanks, in particular, for engaging with climate, transportation and community activists on how best to reform parking requirements for new developments. We are grateful that you signed on as a coauthor of AB 2097. We are proud of the agreements made to get this legislation passed. We look forward to making more progress and to supporting your efforts in the future.

Sincerely,
