Action Script for Calling Representatives

Hello, my name is _____

I am calling today heartbroken and deeply concerned about the war in Gaza that I am witnessing daily on my television. Hospitals and residences have been bombed. Fuel to run vital services have been cut off. As well as potable water. It has been reported that up to 8000 Gazans have already been killed, which includes 3500 children, and Israel hasn't even begun its full incursion into Gaza City.

As a follower of the teachings and example of Jesus, concern for the civilians impacted by this conflict are upper most in my mind. I urge you to take every opportunity to remind the President and administration officials that protecting civilians and hostages is paramount. They should impress upon the Israelis that the death and carnage left in the wake of a total destruction of Hamas may leave them with a Pyrrhic victory with any hope they had of normalizing relations with their neighbors in tatters for a generation. We need to start creating some alternatives.

The people of Gaza City need a ceasefire, or at least a pause, and safe corridors to move away from the fighting and safe zones for refuge or they may not leave their homes.

The United States along with other governments and international aid organizations need to step up the supplies of needed food, fuel, water, temporary shelters and other vital supplies to those displaced peoples in Gaza. They will also need to step up with aid to win the peace.

Israel needs an endgame. They, the Gazans and all Palestinians and the World, for that matter, need a just and lasting peace. Gaza will need to be rebuilt. The lives of Palestinians need to be normalized. Everyone needs to come to terms with the fact no one is going anywhere. The extremists like Hamas, Hezbollah, their patron Iran and others need to be discredited. Their path of no compromise is a dead end that hasn't gotten anyone, anything except death, misery and stunted potential for 70 years.

Enough.

We have the power to change the course of events, if we choose to do so for a just and more peaceful world.
